

ZAENTZ FAMILY CHILD CARE INNOVATION NETWORKS AWARD

*CULTIVATING COMMUNITIES OF
PRACTICE IN MASSACHUSETTS*

2021 AWARDEES

This award is designed to highlight and strengthen the kinds of professional networks and reflective, collaborative activities that have been proven to enhance educators' job satisfaction, wellbeing, and the quality of their practice. The makeup of this year's list of awardees is a testament to the diversity and commitment of providers across the field. Collectively, the 12 winning groups serve children and families in a broad range of communities, from the Quabbin and Fitchburg areas to metropolitan Boston and Martha's Vineyard. They speak many languages, including Spanish, Arabic, Portuguese, and Haitian Creole, among others. Among the winners are providers who are new to the field and many who have been serving for decades, including a few who have been educating and caring for children for over 30 years.

The 2021 awardees include:
